DELTA STEWARDSHIP COUNCIL

The Delta Stewardship Council was created in legislation to achieve the state mandated coequal goals for the Delta. "Coequal goals" means the two goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Delta ecosystem. The coequal goals shall be achieved in a manner that protects and enhances the unique cultural, recreational, natural resource, and agricultural values of the Delta as an evolving place." (CA Water Code §85054)

Is the State more efficient in its water use?

Increasing water use efficiency is a key legislative mandate to reduce reliance on the Delta for water supply.

Progress is tracked by comparing urban per capita water use in years 2015 and 2020 to per capita water use during a historic ten year baseline period.
